

PORK

HERITAGE BREEDS

Woodland Farm's free-roaming heritage hogs are healthier & happier than conventionally raised hogs. Our hogs naturally forage crops, grass, and grubs. This varied diet, rich in vitamins and minerals, results in a better tasting, more nutritious cut of pork, higher in omega-3s.

We are committed to sustainability; we never use hormones or low-level antibiotics in raising our animals.

To ensure the highest quality at all stages of production, we process at our own Animal Welfare Approved™, USDA facility.

More flavor. All-natural. Pasture Raised.
